

LET'S CLEAN IT UP

We love our planet as much as you do. That's why we've really stepped up our green game with our newlcon pedal bins. These sustainable pedal bins are made of 40% recycled materials, and after use, 98% of the bin and packaging is recyclable.

On top of that, for every newlcon pedal bin that is sold, Brabantia makes a donation to The Ocean Cleanup to fulfill its mission – to rid the world's oceans of plastic.

For more information about The Ocean Cleanup:
